

# Nazi Princes and Court Jews

Prince Franz Joseph of Hohenzollern-Emden was a member of the Nazi SS. Prince Maximilian Egon II of Furstenberg was a Nazi Standartenfuhrer. The father of King Willem Alexander; Prince Claus of the Netherlands was a member of the Nazi Wehrmacht and Willem's grandfather Prince Bernhard of Lippe-Biesterfeld was a member of the Nazi Sturmabteilung. Leffmann Behrends was a Court Jew banker that served the House of Hanover. Prince Ernest Augustus of Hanover was senior lieutenant in the Nazi Wehrmacht defense force. His grandson also named Prince Ernst August of Hanover's godfather is Rolf Sachs who is a Swiss banker and German industrialist. Rolf Sachs father Gunter Sachs was an associate of high level Nazis and his grandfather Willy Sachs was a financier for the Nazis and member of the Nazi paramilitary group. The German Sachs clan are both Jewish and Christian like the Jewish Sachs family that co-founded Goldman Sachs. Prince Friedrich Ferdinand of Schleswig-Holstein-Sonderburg-Glucksburg was a major in the Nazi army and awarded the Knight's Cross of the Iron Cross. Prince Heinrich of Sayn-Wittgenstein was a Nazi fighter pilot. Prince Friedrich Josias of Saxe-Coburg and Gotha was a Nazi officer in the Wehrmacht. Prince Bernhard of Saxe-Meiningen was accused of being part of a Nazi conspiracy and later fled to Italy. The Saxe families derived from the House of Wettin the Dukes of Saxony and they hired the Jewish Lehmann family as their bankers. Rudolf Hess was a high level Nazi politician and likely related with the German House of Hesse which employed the Rothschild family as Court Jews. Ludwig Bamberger was a Jewish banker and member of the Reichstag working for these same noble families that later became involved with the Nazis. Philipp the Landgrave of Hesse was a member of the Nazi Party. King Edward VIII of England was a strong Nazi supporter and friend of Adolf Hitler. The Nazis persecuted anyone who opposed their fascist regime. There were even Jewish Nazis called Mischlings. The Nazi general Hermann Goring and Nazi officer Hermann Balck were Knights of the House Order of Hohenzollern. The Goldschmidt-Rothschild family are Jewish bankers that were established as barons by the House of Hohenzollern.

Emperor Wilhelm II was from the Hohenzollern and Saxe-Coburg and Gotha families and his actions and ideologies helped to create the rise of the Nazis in Germany. Even with the Hohenzollern family being "exiled" after WWI for a period of time they returned to Germany and reclaimed much of their castles, claims to titles, and estates. Wilhelm II's son Prince August Wilhelm of Prussia even joined the Nazi party. These royal and noble families still all exist and own large amounts of property in their former principalities. They are relatives of more powerful royal families that rule nations like the House of Windsor, Belgian House of Saxe-Coburg and Gotha, House of Glucksburg in Norway, House of Orange-Nassau, and House of Nassau-Weilberg. Most of the other German and Austrian noble families that claimed to oppose the Nazis were the ones that helped to engineer them. Siegmund George Warburg was a English Jewish banker and associate of Hjalmar Schacht who was the Reich Minister of Economics under the Nazi regime. The Warburg family financed the Nazis with criminal pay offs disguised as unprofitable loans right before WWII and right before "fleeing" Germany. Max Warburg is a influential German banker today as the head of M. M. Warburg Co. The House of Windsor supported the Nazis while their proxy government fought against them. Prince Michael of Kent's wife is Baroness Marie Christine von Reibnitz and her father Gunther von Reibnitz was a member of the Nazi Party and Nazi SS. The Windsor family use the Jewish Rothschild and Goldsmith families as Court Factors and financiers. King George V's parents were Saxe-Coburg and Gotha and Schleswig-Holstein-Sonderburg-Glucksburg and he changed the British royal family's name to Windsor. The same German princely families who were Nazis used what are historically called "Court Jews" to handle their finances, run

proxy banks, and collect their taxes in their serfdoms for centuries and they still do today. The Nazi Holy Roman nobility and royalty like the Hanover, Hohenzollern, Wurttemberg, Hesse, Saxe-Coburg and Gotha, Windsor, and Nassau families use Court Jews to finance Nazi propaganda and propagandists. Many people pushing Nazi propaganda are being financed by Court Jews employed by Nazi royalty.
